

FasCard Kiosks Overview

Overview

The **FasCard Touch Kiosk** is an optional self service device designed to allow FasCard locations to easily dispense and add value to loyalty cards. Users interact with the touch screen interface to dispense obtain new Loyalty cards or view and manage existing Loyalty accounts. The kiosk is capable of accepting cash or credit/debit cards and can dispense 250 cards between refills.

The **FasCard Add Value Kiosk** is an optional self service device designed to allow a convenient method for laundry customers to refill their account balance using either cash or credit/debit. It uses a simpler interface than the Touch Kiosk and does not dispense cards.
